Frameworks & Libraries: React.js, Node.js, Express.js, Spring Boot (basic), Pandas, NumPy, Scikit-learn, Matplotlib

Databases & APIs: MySQL, REST API design and integration, query optimisation, stored procedures

Tools & Practices: Git, GitHub, VS Code, Jupyter, Code Review, SDLC, System Design basics, Page Speed and On-Page SEO

AI & Automation: Prompt Engineering, AI chatbot development, n8n, Zapier, Claude Code, Cursor, GitHub Copilot, ChatGPT, Claude, Gemini

Data & Platforms: Advanced Excel, Power BI (DAX, Power Query), Shopify, WordPress, Odoo

EXPERIENCE

Data Analyst | AZAD Solar, Kichha, Uttarakhand

January 2026 – Present

- Tracked dealer enquiries, leads and conversions end to end, and produced monthly sales, inventory and performance reports for leadership review.
- Analysed area-wise order volumes and product demand to identify high- and low-performing territories, informing business planning.

Web Developer | AI Researcher | Opspilot AI, India

June 2025 – December 2025

- Delivered 15+ client websites and web applications across Shopify, WordPress, Odoo and custom HTML/CSS/JavaScript, owning design, build and deployment.
- Built AI chatbots and automation workflows (prompt engineering, n8n, Zapier) that reduced manual client-onboarding effort by ~30%.
- Designed and deployed full-stack applications and backend services, integrating REST APIs with MySQL to power client business workflows.
- Led 15+ concurrent engagements from requirements to testing, deployment and post-launch support as the primary technical contact.
- Optimised page speed, site structure and on-page SEO to improve load times and organic search visibility.

Website Manager | Blue Space Consulting, Delhi

January 2024 – May 2025

- Resolved product page, catalogue and checkout issues on the company storefront to protect conversion rates.
- Managed listings, inventory, pricing and promotions across Amazon, Flipkart and Meesho.

Web Developer | DROP AI, Shivamogga, Karnataka

August 2022 – November 2023

- Built web applications end to end across frontend, backend and database layers, meeting release timelines.
- Developed reusable UI components and templates in HTML, CSS and JavaScript; diagnosed and fixed frontend and backend defects with the team.

PROJECTS

AI-Powered E-Commerce Management System

React.js, Node.js, Express.js, MySQL, Python

- Built a full-stack platform covering products, inventory, orders, customers and sales, with REST APIs and a responsive React dashboard.
- Added Python (Pandas, Scikit-learn) analytics for sales trends, inventory monitoring and demand prediction.

AI-Powered CRM & Lead Management System

React.js, Node.js, MySQL, Python, NLP

- Built lead, follow-up and sales-pipeline management with a scalable MySQL schema and RESTful APIs.
- Implemented lead scoring, customer segmentation and conversion analysis in Python, surfaced in an interactive dashboard.

Employee Management & HR Analytics System

React.js, Node.js, MySQL, Python

- Built records, attendance, leave and performance modules with role-based authentication and REST APIs; produced HR analytics dashboards with Pandas.

ACHIEVEMENTS

- Ranked #1 in India on HackerRank's SQL Practice track.
- Named Employee of the Month twice for performance and reliability.

EDUCATION & CERTIFICATIONS

Diploma, Data Analytics Using AI | GyanSetu

Aug 2026 – Present

Bachelor of Computer Applications (BCA) | 3rd-year coursework completed; degree not completed 2021 – 2024

HackerRank Verified: SQL (Advanced), Problem Solving (Intermediate), JavaScript (Intermediate), REST API (Intermediate)

Forage Job Simulations: Deloitte Data Analytics, Tata GenAI-Powered Data Analytics, BCG X Data Science
